

ZOO DAY 2010

PHOTO PERMISSION SLIP

A photographer will be present on our annual Zoo Day to take photographs which Early Years can then use for the purpose of promoting the services that we offer.

As you will be aware, Child Protection laws require us to obtain parental permission before making any photographs available for public viewing. It is important that you obtain parental permission for photographs for all the children attending from your setting. You may have already obtained permission on enrolment of the children to your setting.

If there are any children whose parents / guardians do not permit their child's photographs to be used, it is your responsibility to ensure that these children are not photographed.

Please sign and return the slip below to confirm that you understand and agree to the above conditions.

We look forward to seeing you at Belfast Zoo on Wednesday 12th May 2010.
